<p>Risk Stratification – Preventative Care</p>	<p>Purpose - ‘Risk stratification for case finding’ is a process for identifying and managing patients who have or may be at-risk of health conditions (such as diabetes) or who are most likely to need healthcare services (such as people with frailty). Risk stratification tools used in the NHS help determine a person’s risk of suffering a particular condition and enable us to focus on preventing ill health before it develops.</p> <p>Information about you is collected from a number of sources including NHS Trusts, GP Federations and your GP Practice. A risk score is then arrived at through an analysis of your de-identified information. This can help us identify and offer you additional services to improve your health.</p> <p>If you do not wish information about you to be included in any risk stratification programmes, please let us know. We can add a code to your records that will stop your information from being used for this purpose. Please be aware that this may limit the ability of healthcare professionals to identify if you have or are at risk of developing certain serious health conditions.</p> <p>Type of Data – Identifiable/Pseudonymised/Anonymised/Aggregate Data</p> <p>Legal Basis UK GDPR Art. 6(1) (e) Public task and Art.9 (2) (h) Health data. The use of identifiable data by ICBs and GPs for risk stratification has been approved by the Secretary of State, through the Confidentiality Advisory Group of the Health Research Authority (approval reference (CAG 7-04)(a)/2013)) and this approval has been extended to the end of September 2023 NHS England Risk Stratification which gives us a statutory legal basis under Section 251 of the NHS Act 2006 to process data for risk stratification purposes which sets aside the duty of confidentiality. We are committed to conducting risk stratification effectively, in ways that are consistent with the laws that protect your confidentiality.</p> <p>Processors – Buckinghamshire, Oxfordshire, Berkshire West Integrated Care System (BOB ICS)</p>
<p>Public Health Screening programmes (identifiable) Notifiable disease information (identifiable) Smoking cessation (anonymous) Sexual health (anonymous) Vaccination Programmes</p>	<p>Purpose – Personal identifiable and anonymous data is shared. The NHS provides national screening programmes so that certain diseases can be detected at an early stage. These currently apply to bowel cancer, breast cancer, aortic aneurysms and diabetic retinal screening service to name a few. The law allows us to share your contact information, and certain aspects of information relating to the screening with Public Health England so that you can be appropriately invited to the relevant screening programme.</p> <p>More information can be found at: https://www.gov.uk/topic/population-screeningprogrammes [Or insert relevant link] or speak to the practice</p>

Payments, Invoice validation	<p>Purpose - Contract holding GPs in the UK receive payments from their respective governments on a tiered basis. Most of the income is derived from baseline capitation payments made according to the number of patients registered with the practice on quarterly payment days. These amounts paid per patient per quarter varies according to the age, sex and other demographic details for each patient. There are also graduated payments made according to the practice’s achievement of certain agreed national quality targets known as the Quality and Outcomes Framework (QOF), for instance the proportion of diabetic patients who have had an annual review. Practices can also receive payments for participating in agreed national or local enhanced services, for instance opening early in the morning or late at night or at the weekends. Practices can also receive payments for certain national initiatives such as immunisation programs and practices may also receive incomes relating to a variety of non-patient related elements such as premises. Finally there are short term initiatives and projects that practices can take part in. Practices or GPs may also receive income for participating in the education of medical students, junior doctors and GPs themselves as well as research. In order to make patient based payments basic and relevant necessary data about you needs to be sent to the various payment services. The release of this data is required by English laws.</p> <p>Legal Basis - Article 6(1)(c) “processing is necessary for compliance with a legal obligation to which the controller is subject.” And Article 9(2)(h) ‘as stated below</p> <p>Data Processors – NHS England, Buckinghamshire, Oxfordshire, Berkshire West Integrated Care System (BOB ICS), Public Health</p>
